Auckland Memory Symposium
The University of Auckland
April 19, 2012

9:00  206-220  Keynote talk: Memory and the Brain: Past, Present and Future
Professor Morris Moscovitch
University of Toronto and the Rotman Research Institute of Baycrest Centre for Geriatric Care

10:00  206-215  Morning Tea

10:30  206-215  Episodic Memory in Frontotemporal Dementia
Professor John Hodges
ARC Centre of Excellence into Cognition and Its Disorders, Neuroscience Research Australia and University of New South Wales

11:00  206-215  Autobiographical Memory in Semantic Dementia – To Infinity and Beyond
Dr Muireann Irish
ARC Centre of Excellence into Cognition and Its Disorders, Neuroscience Research Australia and University of New South Wales

11:30  206-215  Remembering the Future: Phenomenology of Remembered Simulations
Victoria Martin
Department of Psychology & Centre for Brain Research, The University of Auckland

12:00  201-604  Lunch

1:00  206-215  Discussion: Measuring Autobiographical Memory
Led by Dr Donna Rose Addis & Associate Professor Lynette Tippett
Department of Psychology & Centre for Brain Research, The University of Auckland

2:00  206-215  Accelerated Forgetting in Epilepsy
Monica Ricci
ARC Centre of Excellence in Cognition and its Disorders, Macquarie University

2:30  206-215  Evaluating the Effectiveness of Group-based Memory Training in Neurological Patients
Dr Laurie Miller
ARC Centre of Excellence into Cognition and Its Disorders, Faculty of Medicine, University of Sydney and Neuropsychology Unit, Royal Prince Alfred Hospital

3:00  206-215  Direct and Generative Retrieval of Autobiographical Memory
Dr Donna Rose Addis
ARC Centre of Excellence into Cognition and Its Disorders, Department of Psychology & Centre for Brain Research, The University of Auckland

3:30  206-215  Afternoon tea

4:00  206-220  Keynote Talk: Beyond the "Resting State": The Role of the Default Network in Internally-Directed Thought
Dr Jessica Andrews-Hanna
Dept of Psychology and Neuroscience, University of Colorado Boulder
